

## An Update from Rapid City Regional Airport Regarding COVID-19

At Rapid City Regional Airport, your safety is our highest priority. As concerns over the COVID-19 virus continue to grow, we are carefully monitoring the situation. We are working closely with various federal agencies, local emergency management, other airports, and our Mayor's Office to meet our local, state and federal regulations. This situation is quickly evolving and we are doing our best to plan and adapt as needed.

### Airport Cleanliness

Having clean facilities is always a high priority for us. In addition to our regular cleaning schedule, we are doing the following:

- *Constant and thorough cleaning and disinfecting of the airport terminal during daytime hours*
- *Overnight sterilization of key touch point areas throughout the facility including but not limited to: handrails, door handles, elevator call buttons, hold room seating areas, trash bins, water fountains, etc.*
- *Installed paper towels and posted informational fliers in public restrooms*

### Airport Flights & Services

We are open and flights are operating, however, cancellations and delays may occur. The best source of information for your flight, is with your air carrier:

American: [www.aa.com](http://www.aa.com)  
Allegiant: [www.allegiantair.com](http://www.allegiantair.com)  
Delta: [www.delta.com](http://www.delta.com)  
United: [www.united.com](http://www.united.com)

Other services, including car rentals, shuttle, and both the pre and post security restaurants, are open and available at the terminal. However, many have had to reduce staff and/or hours. Skycap services will no longer be provided and the Mount Rushmore Memories Gift Shop has temporarily closed. Certain necessities may still be purchased at the restaurant post security.

### Passenger Resources
