

## An Update from Rapid City Regional Airport Regarding COVID-19

As of Tuesday, July 21, 2020

We encourage all airport users to practice personal responsibility and social distancing while visiting the Rapid City Regional Airport (RAP). Facial coverings are strongly encouraged while in the terminal and are required by all of our air carriers for air travel. There are currently no quarantine requirements for inbound travelers at the airport.

### **Airport Cleanliness**

In addition to our regular cleaning schedule, we have implemented a very robust cleaning program that includes continuous cleaning and disinfecting of all areas in the terminal during normal operating hours. This includes all high touch points such as handrails, door handles, elevator call buttons, hold room seating areas, trash bins, water fountains, etc. After normal business hours, we are also utilizing electrostatic disinfectant fogging.

Other elements of our program include:

- Floor decals and other signage to encourage social distancing
- Messaging promoting wearing of face coverings
- Hand sanitizing stations located throughout the terminal
- Shield guards at airport businesses, ticket counters, and gate podiums

### **Airport Flights & Services**

Daily flights are operating on a limited basis, however, cancellations and delays may occur. All air carriers operating at our airport require and will provide masks for air travel. The following carriers operate here at RAP:

American: [www.aa.com](http://www.aa.com)

Allegiant: [www.allegiantair.com](http://www.allegiantair.com)

Delta: [www.delta.com](http://www.delta.com)

United: [www.united.com](http://www.united.com)

### **Airport Concessions and Services**

The airlines, car rental agencies, airport shuttle, restaurants, and gift shop are open for business. The pre-security restaurant closes daily at 1:00 PM.
